

International Media
Festival for Prevention
Toronto 2021

Shortlist announcement

Due to the worldwide impact of COVID-19 and the postponement of the XXII World Congress on Health and Safety at Work to September 2021, the International Organizing Committee has decided to hold a “Digital Meeting on COVID-19 and OSH” on 5 and 6 October 2020.

As an essential part of the World Congress, the International Media Festival for Prevention will also be part of this Digital Meeting and will take this opportunity to announce its shortlist.

We invite you to a one-hour IMFP Live Session on **6 October 2020 at 3 PM (CEST)**. Join us on a media journey around the globe! Find out what’s new in the field of media in prevention and be part of the announcement of the 50 shortlisted media products of this year's festival.

All sessions will be held online and will be free of charge. Registration opens in early September 2020 on the [World Congress website](#). In the meantime, be sure to save the date and follow us on Twitter and Instagram in order to see the latest IMFP-News!
