- preparatory phase
**EU-ILO Project**

*“Enhancing the Labour Administration Capacity to Improve Working Conditions and Tackle Undeclared Work”*

**Key outputs for the period**

*July 2017 – May 2018*

**Analysis and recommendations on OSH and labour inspection**

- Guidelines and recommendations on the draft Concept on the reform of the national system for occupational risk prevention and promotion of occupational safety and health for 2018-2020
- Occupational Safety and Health profile for Ukraine (validated by the national stakeholders)
- Analysis of the degree of concordance between the national legislation and 6 EU directives on OSH and labour relations, made on basis of the 6 tables of concordance developed by the workgroups
- Ukrainian labour inspection legal framework. Analysis and recommendations (to be validated in June 2018)
- Analysis of the current information system (IS) of the SLS and its interoperability with IS’s of other institutions

**Capacity building**

- 100 representatives of the national stakeholders trained on EU directives at 6 specialized project trainings
- 60 representatives of the stakeholders involved in discussions on implementation of the EU directives
- Undeclared Work in Ukraine: Nature, Scope and Measures to Tackle It – working paper for development of the multiannual strategy to tackle undeclared work
- Project officially launched on 7 November 2017
- Project Steering Committee (SC) set up

**Activities in progress**

- Development of recommendations on:
  a) improvement of SLS IT system for planning inspections and processing inspections results;
  b) data sharing (specially in UDW).
- Development of the “White paper” on the reform of legislation on OSH and labour relations

**Activities planned for June-November 2018**

- Training to draft the multiannual strategy on UDW including communication campaign
- Trainings for the labour inspectors on UDW
- Implementation of UDW Strategy
- Design of the training programmes for labour inspectors on OSH and on tackling UDW
- 1st study visit to learn EU LI systems
