

# WHAT IS A MARKET SYSTEMS APPROACH TO DECENT WORK?

It analyses the system of supporting 'functions' and 'rules' that influence how well enterprises perform in a value chain...

International Labour Organization

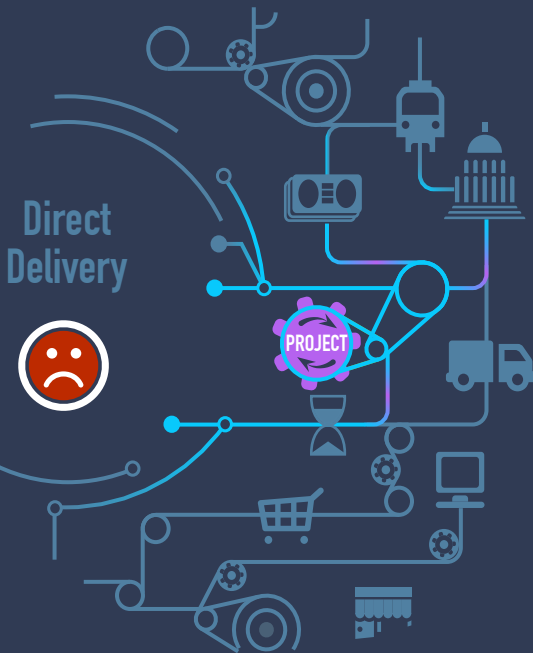

in order to address the underlying 'root cause' reasons why these enterprises do not provide more and better jobs.

So rather than putting out fires, it's about tackling the reasons why fires start in the first place!

## INTERVENTIONS

### DIRECT DELIVERY

Projects 'facilitate' change - aligning incentives in public and private actors, so they can carry forward and own the change process.

This contrasts to 'traditional' direct delivery, which relies on the continued presence of a project to uphold positive change.

### SYSTEMIC

## PATHWAY TO IMPACT

### SYSTEMIC

intervention

gradual sustained impact

Market systems interventions lead to more sustainable impact at scale.

### DIRECT DELIVERY

intervention

temporary and limited impact
