

Comments received during the consultation by correspondence concerning the special arrangements for the 341st Session of the Governing Body (GB.341/INS/1)

Maroc

Il y a lieu de noter qu'en ce qui concerne les modalités de vote, telles que proposées au paragraphe 32, alinéas g) et h) de l'annexe, dans le cas où le consensus ne se dégage pas, il conviendrait de tenir compte des éventuelles difficultés techniques pouvant affecter le bon recueil des voix exprimées virtuellement.

Russian Federation

The Russian Federation considers that there is no sufficient justification, legal and practical grounds for the introduction of a voting procedure at the Governing Body sessions held virtually due to current exceptional circumstances. At this point, we underscore the importance for Governing Body members to make every effort to reach tripartite consensus as the principal way of decision-making. It has also been a long-standing position of our delegation that ballots by correspondence are only appropriate for routine, non-controversial, essentially technical, issues on the agenda. For these reasons Russia cannot support the proposed draft decision concerning the special arrangements for the 341st session of the GB of the ILO contained in document GB.341/INS/1.
