Suggested points for discussion

How can ILO DC adapt to the new context and support constituents in achieving DW outcomes and SDGs?

How can the link between ILO's added value and DC be strengthened to address gaps at the national level ?

Within the UN reform, how can ILO DC best support constituents in facilitating policy coherence and mainstream DW in national development plans and UNDAFs?

From a financing for development perspective: what are the roles of constituents and the Office in ensuring an optimal combination of partnerships and modalities for adequate funding of ILO DC?
