
ILO Voluntary Contributions for Development Cooperation: **Annual Report 2018**

Partnerships and Field Support Department,

April 2019

Trends in ILO approvals in 2018

Following a record-setting US\$ 368.6 million in total approvals in 2017, ILO voluntary non-core funding experienced a 15% decline in 2018, but at US\$ 312.2 million remained well above historical average approval levels. In addition, the ILO received US\$ 20.9 million in Regular Budget Supplementary Account (RBSA) funds, or voluntary core funding, for the biennium 2018-9.

The Top 10 voluntary funding sources* in 2018

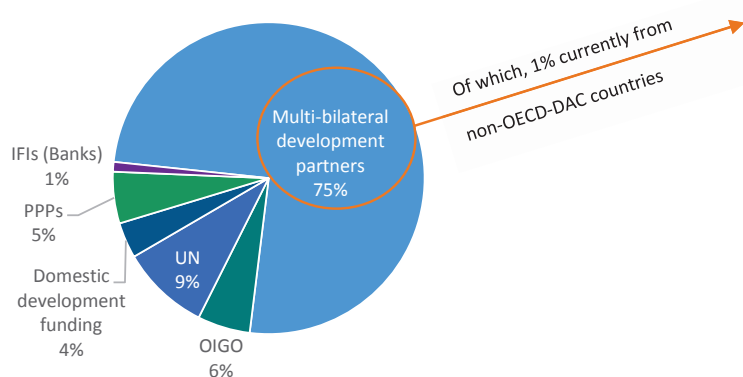

Development Partner	Budget Approved (US\$)
1. Germany	\$59.2 million
2. the Netherlands	\$51.7 million
3. United Nations	\$28.7 million
4. United States	\$23.5 million
5. United Kingdom	\$20.8 million
6. European Commission (EC)	\$16.9 million
7. Public-private partnerships (PPPs)	\$16.7 million
8. Norway	\$ 16.6 million
9. Switzerland	\$16.2 million
10. Sweden	\$15.8 million

*Ranking does not include RBSA contributions.

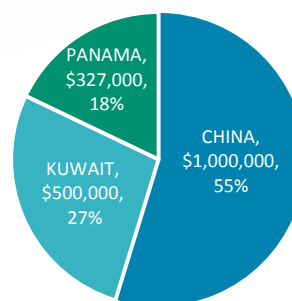

Voluntary funding highlights in 2018

- Approvals have steadily increased since 2010: total approvals for the period 2010-2013, on average, totalled US\$238 million per year. For the period 2015-18, average annual approvals reached US\$ 287 million.
- Germany became the biggest contributor to ILO's voluntary funding in 2018, tripling its contributions compared to 2017. Its contributions focus particularly on employment intensive investment to support Syrian refugee response in Jordan, Lebanon and Turkey and the majority are supported by the German Development Bank (KfW).
- For multi-bilateral approvals in 2018: 25% was contributed by Germany, 22% by the Netherlands, 10% by the United States, 9% by the United Kingdom, and 7% by Norway. The largest part of multi-bilateral funding is invested in employment promotion, especially employment-intensive investment, and improving labour standards in global supply chains.

Distribution of funding sources, 2018

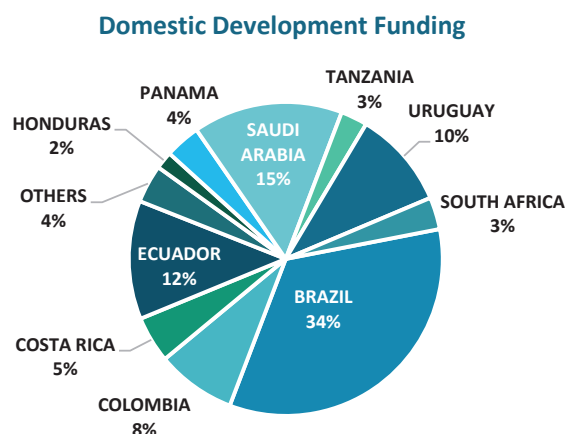

Funding from non-OECD-DAC countries, (USD)

- Accounting for 75% of total approvals in 2018, multi-bilateral development partners remained the largest source of voluntary funding, and dramatically increased their share of total approvals compared with 2017 (43%) thanks especially to the generous contributions of Germany and the Netherlands. The United Nations (9%), EC (5.5%), PPPs (5.4%), and Domestic Development Funding (3.7%) round out the top five sources of voluntary funding for 2018. As

a sign of the shifting nature of development assistance, Domestic Development Funding continues to play an increasingly important role in ILO's voluntary funding portfolio.

- PPP approvals totalled US\$16.7 million in 2018, including a nearly 80% increase in resources provided by foundations such as the Prudential Foundation, the Bill and Melinda Gates Foundation, the JPMorgan Chase Foundation, among others. Foundations provided US\$6.8 million in 2018 compared with US\$1.4 million in 2017.
- UN approvals have more than doubled in the last biennium - from US\$ 13.6 million in 2016 to US\$ 28.7 million in 2018. This trend is largely a result of Joint Programmes/Multi Partner Trust Funds (MPTFs), which represent 37.5% of total UN funding to the ILO in 2018. The main areas of focus are Workquality and Employment in the Africa and Arab States regions – in the thematic areas of employment-intensive investment (23.9% of UN funding), gender, equality and diversity (20.5%), and migration (14.1%).
- In 2018, Employment-related activities continued to attract the largest proportion of extrabudgetary funding (39.2%), followed by Governance (33.3%), Workquality (11.0%), Enterprises (10.1%), and Social Protection (3.8%).
- In 2018, 24.4% of total approvals were for Africa and 20.4% for the Arab States, followed by Asia (17.7%), the Americas (7.2%), and Europe (6.7%). A significant percentage of resources were also allocated to interregional or global projects (23.7%). While figures for Africa, the Arab States and Global/inter-regional projects aligned with the same trends observed in 2017, Asia's share of total approvals declined by ten percentage points followed by a seven point decline in the Americas and six percentage point drop in Europe. These shifts are likely related to the record approval levels recorded in 2017 and increased funding for Syrian refugee response in the Arab States, which have both caused changes to the distributions historically observed by region.
- Of the total of extra-budgetary funds approved in 2018, 24.1% was financially managed by headquarters; and 75.5% by the field. This distribution represents nearly a six percentage point change compared to 2017, where 30.7% of approvals were managed by headquarters and 69.3% by the field.
 - In the Africa region, the ILO's Regional Office in Abidjan administered nearly ten percent of all ILO voluntary funding, following by country offices located in Algiers (4.1%), Cairo (2.6%) and Addis Ababa (2.4%). Overall, the region's activities are mainly focused on employment promotion and governance issues.
 - In the Americas region, the ILO's Regional Office in Lima administered 1.9% of voluntary funding, followed closely by field offices in San José (1.9%), Brasilia (1.2%), and Lima (1.1%). Their projects concentrate on promoting occupational safety and health, especially through labour inspections, and supporting responsible and competitive business.

- In Europe and Central Asia, ILO-Ankara, remaining consistent with 2017 figures, administered more than 5% of total extra-budgetary funds approved in 2018, with a strong focus on projects related to the Syria refugee crisis.
- In Asia and the Pacific, the ILO's office in New Delhi managed 6.3% of ILO voluntary funding – a fivefold increase compared to 2017 – due largely to a regional project on fair recruitment and decent work for women migrant workers supported by the United Kingdom. The portfolio of the Country Office in Dhaka doubled in 2018 (totalling 3.6% of ILO voluntary funding) compared with 2017 and reflects an increasing focus of multi-bilateral donors, the UN and private sector partners on issues of working conditions, particularly of garment sector workers and migrant workers.
- In the Arab States region, voluntary funding doubled compared with 2017, with the office in Beirut managing more than 20.3% of all ILO voluntary funding thanks largely to projects designed to respond to the Syria refugee crisis and employment-intensive investment.

The following tables provide more detailed information about total voluntary non-core funding approvals in 2018, with some tables providing a comparative overview of approval data for the period 2015-2018. Information is presented by source of funds, partner category, technical field, geographical distribution, administrative responsibility, and a combination of all of the above. For information about voluntary core funding contributions, please refer to the information available at [this link](#).
