

Asset Management, Business Governance and Compliance

Course Title: Asset Management, Business Governance and Compliance

Course Delivery: On-Campus at Kafue Gorge Regional Training Centre

Dates: 29th August to 2th September 2022

INTRODUCTION

The International Labour Organization (ILO), with funding provided by the Government of Sweden, is supporting the Kafue Gorge Regional Training Centre (KGRTC) to implement the Skills for Energy in Southern Africa (SESA) Project. This is a three-and-a-half-year intervention with the overall development objective of increasing the uptake of renewable energy, energy efficiency and regional energy integration through skills development in Zambia and the SADC region. It is expected that the project will strengthen KGRTC's capacity as a Centre of Excellence for energy training in the region and significantly increase the number of power technicians, engineers and managers that are skilled in renewable energy, energy efficiency and regional energy integration. The project will be implemented through a Public-Private Public Development Partnership (PPDP) approach.

COURSE OVERVIEW

This course aims to give participants a broad understanding of what goes into the business planning for an Independent Power Production Plant ('IPP'). It gives an overview of the regional energy sector, studies and documentation required, financing options and market structures.
