PRESENTATION OF THE ILO TECHNICAL GUIDELINES ON GENERAL PRINCIPLES OF LABOUR INSPECTION

OVERVIEW

SNAPSHOT OF THE PRESENTATION

In March 2022, the Governing Body of the ILO endorsed the ILO guidelines on general principles of labour inspection, previously validated by a tripartite meeting of experts held in December 2021. Although non-binding, the guidelines complement the provisions of the Labour Inspection Convention, 1947 (No. 81), the Labour Inspection (Agriculture) Convention, 1969 (No. 129), the Labour Inspection Recommendation No. 81 and the Labour Inspection Recommendation (Agriculture) No. 129. The new ILO guidelines are a milestone in the field of labour inspection, providing advice on how to best structure and manage labour inspection work in any country. For this reason, it is of fundamental importance that labour inspection managers and other staff, and decision makers are well informed of the content of this non-binding instrument when formulating labour inspection policies and regulations, and when performing labour inspection.
