

## **NATIONAL COMMITMENT FOR THE IMPLEMENTATION OF OCCUPATIONAL SAFETY AND HEALTH**

We, the national tripartite partners and stakeholders recognize the need to strengthen the implementation of occupational safety and health (OSH) based on the national strategy to achieve an OSH culture in Indonesia. We confirm our commitment and recognize our responsibility towards ensuring the improvement of sustainable OSH in Indonesia based on the following priorities:

1. To conduct coordinated efforts in implementing the national OSH strategy including through a variety of OSH programs at all levels.
2. To encourage all parties, especially management and workers, to prioritize the implementation of OSH in the workplace.
3. To cooperate with all parties in building and developing human resources in the field of OSH and fostering safe work behavior.
4. To conduct OSH awareness campaigns for the general public in order to foster positive attitudes and conditions of safety and health in all activities.
5. To carry out evaluations of OSH performance towards the achievement of the national OSH targets.
