Information Passport for Migrant Domestic Workers (Paraguay-Argentina)

Information Passport, tool developed as part of the ILO's EU funded Global Action Programme for Migrant Domestic Workers and Their Families (GAP-MDW), was designed on request of workers' organizations in Paraguay-Argentina migration corridor.

The *Information Passport* provides general information about Argentina as a country of destination, basic advice, laws and regulations governing the domestic work sector in Argentina, rights and responsibilities of workers and employers, and main addresses – including DWs organizations and trade unions - in Argentina and Paraguay. This passport size brochure intends to guide Paraguayan domestic workers in Argentina through the legal procedures of employment and labour rights of migrant domestic workers.

The Paraguay-Argentina *Information Passport* was validated by workers in Paraguay and Argentina, and three thousand copies will be printed over the next few weeks. A dissemination strategy was designed in conjunction with domestic workers' organizations, trade unions, consulates and government agencies.
